

# AMBER HUNT

Columbus, Ohio | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [Blog](#)

## PROFESSIONAL PROFILE

Software Engineer and recent Per Scholas grad with a strong interest in creating innovative and impactful software solutions. With a proven track record in leadership and program coordination roles, I possess exceptional analytical, interpersonal, and problem-solving abilities. In my recent experience with Planting.life & Chingu Voyages, I've enhanced my version control, organizational, and agile teamwork skills, which I am excited to apply to a development role and drive success for my team.

**TECHNICAL SKILLS:** React | JavaScript | Python | MongoDB | Mongoose | SQL | MySQL | Node.js | Express.js | Version Control | Git | GitHub | JSON | RESTful APIs | Responsive Design | Material UI | CSS | HTML | JSX | VS Code | Software Development Life Cycle (SDLC) | Object Oriented Programming | Trello | Notion | Frontend/Backend Frameworks

## EDUCATION

**Per Scholas** | Columbus, Ohio | Remote Jan 2023 - May 2023

**Software Engineering Graduate** (*JavaScript Full Stack, React, Node.js, Express.js, MongoDB*)

**Miami University** | Oxford, Ohio Aug 2013 - May 2016

**Bachelor's Degree** (*Liberal Studies*), **Associate's Degree** (*Nat Sci & Mathematics*), **Computer Science Study Abroad** (*Italy*)

## TECHNICAL EXPERIENCE

**Volunteer Full Stack Developer at Chingu Voyages** | Remote Aug 2023 – Present

- Gaining experience in agile work environments, completing weekly sprints and utilizing Notion to track progress

**Ethical AI Mentee at All Tech Is Human** | Columbus, Ohio July 2023 - Present

- One of 340 (of 700 applicants) selected to participate in a 6-month Ethical AI mentorship program
- Exploring potential career paths while expanding my understanding of fairness, transparency, and bias mitigation

**Volunteer React Developer for Planting.life** | Columbus, Ohio May 2023 – July 2023

- Contributed to the frontend of an AI-powered native plant suggestion app under the mentorship of a senior engineer
- Grew in my collaborative development skills, utilizing GitHub within a group setting and Trello for project management
- Employed React, CSS, and Material UI to design engaging and user-friendly interfaces that enhanced user experience
- Refactored code when necessary, breaking down and simplifying large files into more organized, readable pieces

## WORK/LIFE EXPERIENCE

**Backpacker & Seasonal Worker** | USA, Mexico, New Zealand May 2018 - Sep 2022

- Developed Spanish conversational ability and refined overall communication skills over a span of 6 months in Mexico
- Excelled in a range of seasonal positions such as dairy farming, tree planting, housekeeping, guest services, charity fundraising, crop harvest, and more, demonstrating adaptability, flexibility, and a hunger to take on new challenges

**Program Coordinator at SWAP Working Holidays** | Toronto, Canada May 2017 - May 2018

- Facilitated the successful integration of young adults on temporary work permits into Canadian life and culture
- Collaborated with a diverse team of colleagues and program stakeholders to address challenges and meet program goals
- Diligently maintained and updated various communication channels, including in-office boards, social media platforms, a bi-weekly newsletter, and an online job database, while also performing additional duties as required

**Head Skating Instructor & Program Administrator at Harbourfront Centre** | Toronto, Canada Nov 2017 – Mar 2018

- Promoted to supervise an outdoor skating program in my 2nd year of employment, overseeing a team of 10 instructors and managing scheduling and leadership responsibilities for a program with hundreds of skaters each winter
- Facilitated effective communication channels between staff and skaters regarding rink status and program requirements

**Ice Skating Instructor at Chiller Ice Rinks & Harbourfront Centre** | Columbus & Toronto 2010 - Mar 2019

- Translated complex technical skating concepts into bite-sized, accessible explanations for beginner learners
- Successfully utilized a wide range of teaching styles to address the diverse and unique needs of each student

## ADDITIONAL INVOLVEMENTS AND ACHIEVEMENTS IN THE TECH COMMUNITY

I am currently working towards earning the AWS Cloud Practitioner certification and completing Google's Data Analytics program. I passed the Foundations of Humane Tech Course and am now exploring the Tech Stewardship Practice Program. I regularly attend online events offered by All Tech is Human, and in person Columbus tech meetups such as Code & Coffee.
